MOHAMMED F. ALMUTAIRI

LOGISTICS & OPERATIONS SUPERVISOR | WAREHOUSE SYSTEMS & PROCESS AUTOMATION

Riyadh, Saudi Arabia | +966 59 603 1170 | MFAlmutairimo@gmail.com | shipmatrix.net

Automation Projects & Portfolio: mohd97v.github.io

PROFESSIONAL SUMMARY

Logistics and operations professional with experience in warehouse systems, inventory control, facilities management and cross-border medical-equipment logistics. Independently automated 30% of logistics workload across Saudi Arabia and the UAE at Align Technology. Founded ShipMatrix, a logistics automation platform that has processed 1M+ orders. Combines frontline supervision, regulatory coordination, data analysis and process improvement.

CORE COMPETENCIES

Logistics & compliance: Inbound/outbound operations; import coordination; SFDA and Saudi Customs clearances; ISO procedure support

Warehouse & systems: WMS operations; inventory counts; transaction investigation; order allocation; ERP/OMS workflows

Leadership & improvement: Team supervision and training; SOPs; Excel reporting and automation; P&L reporting; issue resolution

PROFESSIONAL EXPERIENCE

Founder | Logistics Automation & Operations | ShipMatrix Solutions Oct 2023 – Present

- Founded and independently operate a B2B platform that has processed more than 1 million orders through shipping and warehouse workflows.
- Standardized differing merchant order exports into shipment-ready data without requiring clients to replace existing ERP/OMS processes.
- Created configurable processes for item handling, order consolidation and warehouse preparation to support shipping-cost and capacity decisions.
- Own customer setup, carrier workflow coordination, daily operations and operational issue resolution.

Logistics Supervisor | Align Technology Mar 2024 – Dec 2025

- Independently automated 30% of logistics workload across Saudi Arabia and the UAE using process and spreadsheet automation.
- Supervised Saudi inbound and outbound logistics and coordinated medical-equipment importation.
- Followed up with SFDA and Saudi Customs to obtain clearance approvals and supported implementation of ISO-related standards.
- Analyzed operational data and maintained Excel-based reporting to support logistics follow-up.

Site Supervisor | Smart Storage Company May 2023 – Oct 2023

- Supervised daily facilities operations, employee training, team activities and escalation handling.
- Presented weekly P&L updates to directors, tracked ongoing projects and coordinated documentation requests.

Warehouse Management System Supervisor (WMS) | Abudawood Logistics Feb 2021 – May 2023

- Investigated WMS transactions, inventory discrepancies and recurring system issues in coordination with the WMS team.
- Led inventory count operations and followed up on order allocation to support timely warehouse execution.
- Trained warehouse supervisors on SOPs and updated procedures; identified further training needs.

EARLIER EXPERIENCE

Flight Attendant | Flynas | Jun 2017 – Jun 2020 — Applied GACA/airline safety procedures, supported passenger care and responded to onboard safety issues.

Customer Service Officer | Carrefour Group | Jul 2015 – Apr 2016 — Resolved customer complaints and returns; helped supervise and train newer employees.
